TOPIC PATH TRAVERSAL

Had a hard time figuring out how this worked, lots of trial and error something happened with a simple '.'

After a lot of searching & struggle I ended up on a dead end with some fake flags.

I've yet to figure out how to get "in" the root folder we first saw, then I tried './root' and I finally got in and down the path I found the flag with

'./root/flags/true_flag.txt'
